Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to compounds, compositions and method of use, classified in class 544, subclass (various).
- II. Claims 9-11 and 13, drawn to a process for production of a compound of formula 1, classified in class 435, subclass 253.5.
- III. Claim 12, drawn to *Streptomyces malaysiensis*, classified in class 435, subclass 253.5 and others.
- IV. Claims 15 and 16, drawn to a method of controlling fungal infection by genetic modification where one or more DNA sequences have been introduced, classified in class 435, subclass various.

The inventions listed as Groups I to IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

20

Art Unit: 1616

The search required for Group I is not required for Group II-IV, and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Invention does not contain the same technical features. It would be a burden on the Examiner to search for all the invention as claimed.

1. During a telephone conversation with Attorney Thomas Hamilton on 5/2/05 a provisional election was made group I traverse to prosecute the invention of group I, claims 1-8. Applicant in replying to this Office action must make affirmation of this election. Claims 9-13, 15 and 16 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Allowable Subject Matter

3. Claims 1-8 are allowed. The closest prior art is SAKATA et al. Presently claimed invention differs from the reference in having a COOH group on furan ring. This difference is neither taught nor suggested by the prior art of record.

4. It is suggested that in claim 8 "e.g. nutrient solution may be substituted by another appropriate phrase.

Art Unit: 1616

5. Examiner called to cancel the non elected invention because elected invention is allowable. Mr. Hamilton requested to send the action in writing because the restriction has been made traverse. Applicants may need sometime to consider the action.

6. This application is in condition for allowance except for the presence of claims 9-13, 15 and 16 to an invention non-elected with traverse. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
